

ESTO QUALITY GUIDE FOR LANDSCAPING TURF

European Synthetic
Turf Organisation

ESTO catches up with Erwin Rutteman, Chairman of the ESTO Landscape Working Group and Managing Director of ESTO member company Condor Grass.

What will the ESTO Quality Guide for Landscaping Turf mean for this part of the Synthetic Turf Industry?

Erwin: Everything, at last there will be minimum requirements and standards for the landscape market. This will not only benefit ESTO members, the industry but also the consumers, contractors, architects and other buyers.

What will Condor position be on the ESTO Quality Guide for Landscaping Turf?

Erwin: Well, I'm not going to reveal all as that is part of our commercial strategy. But certainly our products have already started to be tested and Condor Grass will get behind the ESTO Quality Guide for Landscaping Turf, as it will mean another differentiation for our company. We will have a major presence at FSB.
